The Franciscan Action Network is a network of U.S.-based ministries, institutions and persons following in the spiritual and social movement begun by St. Francis and St. Clare of Assisi more than 800 years ago.

Together we seek to amplify our public voice and use our collective power to humbly advocate and act for an inclusive and transformed social policy and social structures arising out of the U.S. Federal Government and related Washington, D.C.-based institutions.

Through our work we hope to help build a society rooted in social justice, peace, and care for all of creation.
