

Wheaton Franciscan Sisters plan to transfer health care and housing ministries

Over the past 18 months, the Wheaton Franciscan Sisters have been engaged in a process of discernment regarding the future of their ministries in light of the changing health care and housing environment and their ability to continue oversight of the System. They explored a number of options during this process and made the decision that the ministries would be best served in the long term under new sponsorship. Ultimately, they determined that to position the ministries for ongoing success, they would seek out the optimal organization for each region and division. As a result, during 2016, the Sisters will transfer all Wheaton Franciscan Healthcare and Franciscan Ministries. The transfers will be effective upon final negotiation of definitive agreements and all receipt of all required approvals.
